Projects/Updates:

Runway Re-Marking Project – The project has started. As a reminder the only phase that will require a full airport closure (to fixed wing aircraft) will be the final phase. That phase is expected to begin on August 21st and is expected to be completed by August 26th. This portion will be conducted over night to reduce the impact of the closure. We will close down the airport to fixed wing traffic beginning each night at 2200 and will re-open at 0500 each morning. This will be the intersection portion of RWY 01/19 and RWY 14/32 **I have attached maps depicting the different phases and their projected start and end dates:**

Please pay close attention to NOTAM's during this time as they will be changing frequently throughout the phasing.
