 - Tower – 8,697
 - Virtower – 9,875

Fuel Flowage through June 2026 1,614,989 (gallons)

-5% increase from this time last year

Projects/Updates:

Runway Re-Marking Project – We finally had our pre construction meeting and received the official schedule and notice to proceed. This project will begin on August 3rd and is expected to be completed by August 26. This is broken out into multiple phases so that we can keep the airport open as much as possible. The only phase that will require a full airport closure (to fixed wing aircraft) will be the final phase. That phase is expected to begin on August 21st and is expected to be completed by August 26th. This portion will be conducted over night to reduce the impact of the closure. We will close down the airport to fixed wing traffic beginning each night at 2200 and will re-open at 0500 each morning. **I have attached maps depicting the different phases and their projected start and end dates:**

Please pay close attention to NOTAM's during this time as they will be changing frequently throughout the phasing.

Customs Activity

- Calendar Year to date 2026: 277

Customs Clearings Year to Date through June 2026

CALENDAR:

Airport Advisory Board Meeting Will Meet in Person Monday August 10, 2026 at 1630 hours – Lone Star Convention Center
