**Projects/Updates:**

**Runway Re-Marking Project** – As of now TxDOT Aviation is planning on taking this project through the State Commission in August so we could be underway on the project sometime late fall/winter. I will keep updating as I know more.

**ARFF Truck** – The County Commissioners Court approved the funding for a replacement Aircraft Rescue and Fire Fighting truck (ARFF). This will not only be a replacement for our 40+ year old truck, but will also increase our ARFF Index from an index A to an index B. The largest size aircraft that can operate on our airport would be under the Index B classification so this help to bring our life safety in line with the airports full potential. We hope to take delivery of the new truck sometime in June/early July.
